Subject: Sheerflex Coating System

Certificate holder: Dekro Paints (Pty) Ltd

PO Box 131, Kuilsrivier, WESTERN CAPE, 7579
Telephone: 021 903 3131 Fax: 021 906 2307
e-mail: info@dekro.co.za

Description and use

The Sheerflex Coating System is a two-coat application for use in all regions of South Africa for all types of occupancy classifications (**SANS 10400:** Table 1 of Regulations A (20 (1))), on sound, suitably prepared, external and internal surfaces as follows:

- sand-cement plaster
- sand-cement bagged finishes
- cast *in-situ* concrete/ precast concrete
- the above surfaces previously painted with polyvinyl acetate (PVA) paint
- prepared gypsum and fibre cement boards

The Sheerflex Coating System is a two coat ready-to-use, water-based flexible acrylic emulsion wall coating. It is available in a range of colours and packaged in 5 litre and 20 litre containers. It is thoroughly stirred on site before application. It is applied using a block brush or a lamb's wool roller.

This certificate and Agrément South Africa's assessment apply only to the Sheerflex Coating System manufactured by the certificate holder and applied by trained applicators to suitably prepared surfaces as described and illustrated in this certificate, and where terms and conditions of certification are adhered to.

Paint made with recycled industrial waste.

Amoriguard is a certified paint, whose fillers or extenders are based on processed industrial waste. It was invented by Mulalo Doyoyo and co-developed by Ryan Purchase. The amount of volatile organic compounds in the paint is low. It is formulated below critical pigment concentration which means that most voids between fillers and pigments are occupied with solids as opposed to air. The paint is hydrophobic and alkali-resistant with excellent water repellence.
