DEKRO PAINTS CASE STUDY

Heritage Restoration & Coating Solutions for Marsh Memorial Children's Home

At Marsh Memorial Homes, they are dedicated to providing a safe, nurturing environment for children who have experienced trauma, neglect, or abandonment. With over a century of service, their mission is to rehabilitate and reintegrate these young lives, offering them a beacon of hope and the opportunity for a brighter future. Their holistic approach ensures that every child receives the emotional, physical, and educational support they need to thrive.

Dekro Paints has a proud history for over 10 years supplying coatings for interior and exterior applications.

Commercial Coating & Protection Case Study

Project Overview: Marsh Memorial Children's Home

Client & Location: Marsh Memorial Children's Home, Rondebosch, Cape Town.

Objective: Comprehensive restoration and long-term protection of historic multi-structure institutional facility.

Challenge: Protecting diverse architectural elements varying from specialized chimney stacks and smooth exterior walls to fine interior wood and trim items.

Solution: A tailored coating system specified by Dekro Paints, blending standard premium architectural coatings with highly durable marine-grade protective lines.

Exterior Wall & Trim Solutions

Dekro Super Acrylic: Supplied for high-build exterior walls providing superior weather resistance, dirt shedding properties, and excellent UV color fastness.

Sheer Satin: Applied to high-traffic wall surfaces and exterior plaster highlights, delivering a elegant, easily washable, smooth medium-sheen finish.

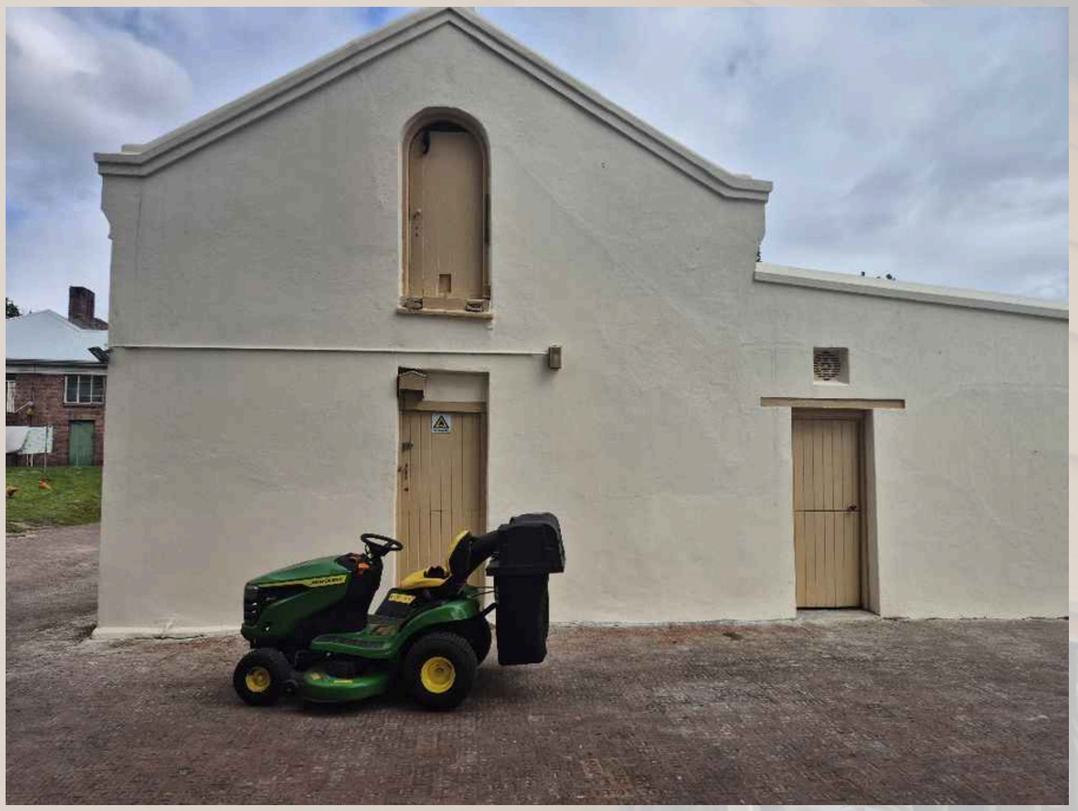
Application Strategy: Formulated to withstand regional moisture changes, ensuring the masonry maintains breathability while preventing peeling and fading.

High-Durability Interior & Enamels

Dekro Non-Drip Enamel: Specially selected for doors, window frames, and interior trim sections. Yields a pristine satin finish with exceptional cleanability and no paint sagging during application.

Dekro Super High Gloss Enamel: Deployed on heavy-use metal fixtures, handrails, and high-impact utility trims, providing maximum mirror-like gloss and premium abrasion protection. Benefits: Exceptional leveling, scuff resistance, and quick curing times to ensure minimal disruption to the home's daily operations.

Specialized High-Performance Protection



Umeguard SX: High-performance surface tolerant epoxy coating utilized as an advanced anti-corrosive primer and barrier layer on structural steel components.

Unymarine: High-spec polyurethane finish coating delivering extreme atmospheric durability, chemical resistance, and premium gloss/color retention against harsh environmental factors.

Braai Paint on Chimney Stacks: Specially formulated heat-resistant coating applied to the facility's chimney structures to prevent degradation from high thermal cycles.

DEKRO PAINTS

Dekro Paints: Professional Excellence

✔️ Comprehensive Product Range: Successfully integrated standard decorative products with industrial protective lines.
✔️ Preservation of Heritage: Maintained the historic beauty and character of Marsh Memorial Children's Home.
✔️ Long-Term Structural ROI: Extended maintenance cycles via tailored performance specifications (e.g., Umeguard SX, Unymarine, Heat-resistant Braai Paint).
✔️ Proven Dependability: Certified technical specs designed to satisfy both structural engineers and architectural standards.
